

Payment schedule Master and Archineer® Membrane Structures

Tuition fees

All fees are **excluding traveling and accommodation**.

Due four weeks before semester start	Tuition Fee EURO
First semester	3.000,00
Second semester	2.300,00
Third semester	2.300,00
Fourth semester	250,00
Total tuition fee (regular study duration of four semesters)	7.850,00
Extended semester (each, from semester 5)	250,00
Processing and admission fee IMS BAUHAUS®/Anhalt University	*300,00
Handling fee uni-assist (extern in case needed)	**75,00

*For processing of the application and evaluation of all supporting documents a processing fee of € 300 is charged. Processing fee is payable after successful pre-checking of the application documents and prerequisite for visa documents. **Via pre-check admission to the Archineer® program can be ensured and the chance of admission to the master's program is assessed.** The official admission letter will be provided not before the payment of processing fee is paid.

**** For final admission to the master's program documents need to be checked more deeply by uni assist:**

The Master course will only take place if a minimum number of 15 participants is secured. Otherwise, the start of the course can be postponed by one semester or cancelled. The application remains valid for the next course term. The payment of the processing/admission fee remains unaffected, even if the student does not continue the application/matriculation under these circumstances.

The respective payments must be credited before enrolment in the corresponding semester. In the case of late payments, enrolment/re-activation is not possible.

All additional fees for the bank transfer need to be paid at your home credit institution. Please ensure that the additional fee for the bank transfer is paid at your home credit institution.

Why are the fees so moderate compared with other programs available?

As an institute associated with Anhalt University of Applied Sciences, we are a non-profit institute. The master program Membrane Structures (M.Eng) is hosted by a German State University. Therefore, we maintain the costs as low as possible and tuition fee is calculated only to cover the expenses. The program is designed and organised every year since 2006 without compromising the level of education, delivering the finest expertise in the field of Membrane Structures.
